The primary bedroom suite is also on the main level and includes a luxurious 4-piece ensuite with an oversized shower and a walk in closet. There's direct access through the laundry area to the 28 x 32' finished garage as well as from the kitchen to the back deck with a treed, private yard. The upper level features two bedrooms and a 4-piece bathroom, perfect for children, guests or a home office. The fully finished walk-out basement adds incredible versatility with a large rec room, bar area, full bathroom, 2 additional bedrooms, a gym or craft room, ample storage and a spacious utility room. Just off the lower level there's a private patio and fire pit, perfect for entertaining guests or relaxing with family. Large windows throughout the home allow for just the right amount of natural light and it's also wired with Control 4 technology (all components will stay). In addition to the garage is a 30 x 40' shop with 20 x 40' lean-to space on either side for additional storage and parking. If you're hoping to have a few animals there's a fenced pasture area and stock waterer. We could go on and on about this amazing property, but it would be better if you come and see it for yourself!
