Exterior:	Concrete, Wood Frame	Zoning:	M-CG d72
Foundation:	Poured Concrete	Utilities:	-
Features:	See Remarks		

Inclusions: All unattached chattels

Rare opportunity to acquire a prominent 8,000+ sq ft corner lot in the elevated southeast pocket of Bankview. Positioned on a hilltop with attractive panoramic and inner-city views, this property offers exceptional long-term redevelopment potential in one of Calgary's established inner-city communities. Zoned M-CG d72, the site supports low-rise multi-residential development (subject to City approval). The corner configuration provides valuable frontage and design flexibility, while the elevated setting enhances future build possibilities. The property is currently improved with a bungalow duplex configuration: one side is tenant-occupied, and the other side includes an illegal basement suite and is presently vacant, offering immediate flexibility for investors or future planning. The existing structure is in well lived-in, renovation-deferred condition and is being offered primarily for its land value and redevelopment potential. Furnaces on both sides and the entire roofing has been replaced in the last 3 years. An ideal acquisition for builders, developers, or strategic investors seeking an income-producing inner-city site with scale, corner exposure, and strong zoning fundamentals.
