It's not often a single home checks this many boxes — fully finished WALK-OUT basement, A/C, turf backyard, double attached garage with 220V power, ANDDD a heated single detached garage (15W x 21L x 12H) with alley access. Perfect for extra storage, a man cave, workshop, she-shed or golf simulator. Step inside and you're immediately greeted by an abundance of natural light flooding the main floor. The kitchen features two-tone cabinetry, a pantry, stainless steel appliances, and a massive island with built-in seating and countertop power, plus direct access to the rear deck. The open-concept layout flows seamlessly into the living room, anchored by a cozy gas fireplace — ideal for everyday living and entertaining. Upstairs is where this home really shines. The spacious primary bedroom offers a functional ensuite with double vanity, soaker tub, and glass shower. The walk-in closet connects directly to the laundry room for next-level convenience. A bonus room separates the primary from the two additional bedrooms and full bathroom, creating a layout that just makes sense. The fully finished walk-out basement adds even more living space with a third full bathroom, large family room with wet bar, generous storage, and direct access to the backyard — complete with turf, dog run, and the detached heated garage. Located right across from park/green space, and minutes to amenities like Costco, Home Depot and Save On Foods - this one is hard to beat!
