Welcome to our stunning Ambleton show home, thoughtfully designed with elevated finishes and a fully legal basement suite offering excellent room to grow! Built by a trusted builder with over 70 years of experience, this home showcases on-trend, designer-curated interior selections tailored for a home that feels personalized to you. Energy efficient and smart home features + moving concierge services. Experience the benefits of living in a former show home, complete with premium upgrades, professional design touches, and a fully developed legal 1-bedroom basement suite—perfect for additional living space. The executive kitchen showcases a waterfall island, upgraded quartz throughout (including backsplash), black fixtures, pendant lighting, and a separate spice kitchen. The main floor features a bedroom and full bath, an eye-catching fireplace with wall detail, and a functional mudroom with built-in locker system. Upstairs offers 3 bedrooms, a vaulted bonus room, and an open-to-below great room, along with a luxurious primary bedroom boasting a tray ceiling, feature wall, and ensuite with tiled shower and bench. Additional highlights include paint grade iron spindle railing, upper laundry with quartz counter, finished basement stairs, air conditioning, a vinyl rear deck with BBQ gas line, exterior trim lighting, landscaping, and irrigation rough-in. This energy-efficient home is Built Green certified and includes triple-pane windows, a high-efficiency furnace, and a solar chase for a solar-ready setup. With blower door testing, plus an electric car charger rough-in, it’s designed for sustainable, future-forward living. Featuring a full range of smart home technology, this home includes a programmable thermostat, ring camera doorbell, smart front door lock, smart and motion-activated switches—all seamlessly controlled via an Amazon Alexa touchscreen

hub.
