Tucked in a quiet cul-de-sac close to the canals, schools, and a splash park, this is the kind of home that truly has it all. Listen - it is HUGE, it has upgrades, and has thoughtful design at every turn. With 5 bedrooms, 3.5 baths, and 3,851 sqft of total living space, it offers flexibility for growing families, work-from-home setups, and everything in between. The main floor is both functional and elevated, with the option for two separate office spaces (one is currently used as a whisky room - yum), beautiful feature walls and an upgraded lighting package. The living areas are warm and inviting with gas fireplaces on all 3 floors, creating the perfect atmosphere year-round. The kitchen is a standout, designed for both everyday living and entertaining. You'll find a gas range, wall oven, beverage fridge, and a Butler's pantry leading to your Double Attached Heated Garage. All surrounded by tons of two-tone cabinetry and a stunning brick feature wall that adds character and depth. From the Dining Area, step out to your full width Upper Deck with a stunning Pergola and tons of room to cook, complete with stairs to the lower level. Upstairs, the vaulted bonus room offers a bright, open retreat complete with a gas stove. The primary suite feels like a true escape, adorned with wood beam accents, a one-of-a-kind sliding barn door, and a spa-inspired ensuite featuring heated floors, river rock tile, and a large jetted soaker tub. Three more bedrooms, another 5-piece bathroom and laundry finish the upper level. The Walkout Basement is fully set up for entertaining or extended living, with an entertainment centre, room for a home gym, wet bar, beverage fridge, another gas stove, built-ins, a fifth bedroom, and a full bathroom with heated floors. Outside, the massive pie lot gives you room to do it all. Two large decks, and a backyard loaded with extras: 4x gas

hookups, 4x electrical outlets, and space to truly enjoy. Room to add a hot tub or a play structure. This home is just as impressive on the outside as it is inside. Additional features include: A/C, solar panels, tankless hot water, a heated garage, water softener, an exposed aggregate driveway, stucco siding, and more. A rare combination of size, style, and functionality in an unbeatable location. Great for families that want a luxury walkout free from the dangers of being directly on the canal.
