The beautifully appointed kitchen features upgraded cabinetry, quality finishes, generous prep space and an open concept design connecting seamlessly into the main living and dining areas. Large windows provide abundant natural light while the surrounding setting enhances the overall sense of privacy and space. Outdoor living has also been thoughtfully incorporated with a private patio on the main level along with two separate decks off the kitchen and living room level, offering multiple outdoor spaces to relax, entertain or enjoy morning coffee. One of the standout features of the home is the rare double attached garage, offering secure

parking, additional storage and the everyday convenience many downsizing buyers are unwilling to give up when transitioning from a detached property. The upper level offers spacious bedrooms, a well-designed primary retreat and the added convenience of upper floor laundry located directly on the bedroom level for long-term comfort and ease of living. This is an ideal opportunity for buyers looking to transition from a larger detached home into something more manageable without sacrificing quality, space or lifestyle. Enjoy the freedom of low-maintenance living while remaining surrounded by beautiful walking areas, amenities and excellent access throughout south Calgary. Living in your home and need to sell?
