Designed with sustainability, wellness, and craftsmanship at its core, the interior showcases solid bamboo

and cork flooring, hand-finished maple countertops sealed with natural beeswax, triple-glazed awning windows, and an airtight, hypoallergenic HRV ventilation system with HEPA filtration. Solar panels quietly harvest the abundant mountain sunshine, enhancing the home's energy efficiency while supporting a mindful lifestyle. Every inch of this home has been carefully considered. Clever built-in storage solutions maximize every nook and cranny, creating a sense of effortless organization throughout.
