This 23 x 25 ft room features tall ceilings, ample south facing windows overlooking the yard, and an atrium with mature trees. As an added bonus there is an upper deck built on top of this room that offers a wonderful outdoor relaxation space. There is also a cozy enclosed deck on the front of the home great for reading and contemplation. From the front entry, to the sitting room, to the dining room, to the great room, to the library, every space in this home has its own personality! Recent landscaping additions include low maintenance rock borders, a concrete patio set, and newly laid sod in some areas. There is also a mature and abundantly productive apple tree. There is a detached, heated double garage, with off street parking at the rear of the property, and a detached single garage to the side of the home.
