Your gaze will be drawn upwards by the high vaulted ceilings, not only pleasing to the eye, but offering that liberating feeling of open space. Follow the gorgeous original 3/4" oak floors & next you'll find a dining area located beside the kitchen, which bathes in natural light thanks to the huge skylights recently installed above. This wonderful room offers 200 sq/ft of space to bask in sunlight throughout the year & an immersive escape that few homes can rival. Another fireplace is found in this room to add heat during the cold seasons, & a back door provides easy access to the backyard, deck & Hot tub. The upper & lower levels offer a stacked 2+2 bedroom layout, with the upper two being larger than below & the option of using either the cool east or the sunny west bedroom as the primary. An updated 5-pc bathroom finishes this floor & offers dual vanities & more of that pleasing vaulted ceiling. On the lower level, two more bedrooms are found & they share a 3-pc bathroom with heated floors. The basement

provides a flex space as an additional living room/rec room & leads to a 5th bedroom (with non-egress window) or storage space as needed. Stepping outside to the sunny & totally private southwest backyard, a large deck awaits with plenty of room for outdoor dinners, with a large hot tub for you to melt your stress away on those cold winter nights. The lower patio is the ultimate place to gather around nightly fires & enjoy Calgary's legendary summers.
