In a busy market, the homes with standout features are the ones buyers remember, and this one has a feature that is tough to find in this neighbourhood. The double detached garage is the real highlight here. Heated, insulated, and incredibly versatile, it gives you the kind of space buyers are always asking for but rarely find in this area. Whether you need room for vehicles, storage, tools, weekend projects, hobbies, or a place to kick back with friends, this garage delivers. The home itself has been fully remodelled and offers a clean, modern, move-in-ready feel. With 2 bedrooms and 1 bathroom, it's a great fit for first-time buyers, downsizers, or investors looking for a property with strong value and practical updates already completed. Recent improvements include shingles, siding, windows, flooring, fresh paint, and more giving you peace of mind and a fresh look from the moment you arrive. Located just two blocks from the downtown core and surrounded by other beautifully updated homes, this property offers convenience, character, and a rare garage setup that truly sets it apart. If you've been waiting for an affordable home with updates already done and a garage that actually stands out, this is one you'll want to see. (Photos we're taken before the tenant moved in)
