---

17.4 acres of serviced land along Highway 16 within the Town of Hinton. This piece of property offers immediate exposure and great access to the community's main traffic corridor with nearly 1000 feet of highway frontage. Potential for subdivision exists - an engineer's drawing showing the property split into 4 parcels is available. Off-site levies are paid and municipal water and sewer services are stubbed at the property line, this land is ready for development. The current owner is able to built-to-suit any need.
