A covered concrete front porch and security screen door complement the exterior. Inside, this 2,193 sq. ft. home offers a bright, functional layout with 9-foot ceilings. The kitchen features granite countertops, an oversized island, a wine bar, and a walk-through pantry, while the adjoining dining and living areas include a gas fireplace. Custom built-in mudroom cabinetry and a two-piece bathroom complete the main level. Upstairs are three generously sized bedrooms, a central bonus room, upper-floor laundry, and Hunter Douglas window coverings throughout. The primary bedroom includes a three-piece ensuite with a soaker tub and a walk-in closet. The fully developed basement provides a large recreation room, fourth bedroom, full bathroom, and a storage area with built-in shelving. Updates include shingles, siding, rear window shutters, and a hot water tank completed in 2021, custom mudroom cabinetry and a built-in coffee bar with bar fridge added in 2020, and a new microwave and dishwasher installed in 2025. This well-cared-for property offers a functional layout, extensive indoor and outdoor living space, and convenient access to nearby schools, pathways, and community amenities.
