The cozy main floor living room hosts a lovely gas fireplace with built in bookcases on both sides. Three bedrooms (one having access to the covered deck) and an updated 4 piece bathroom by complete this level. Head downstairs through your back entry mudroom (with practical storage for all your outer wear) to find a spacious family room complete with another gas fireplace and a dry bar. You will also find the 4th bedroom plus an office and a huge laundry/utility room with a sink that could easily double as a hobby room/craft space. There is another nicely updated 3 piece bath to complete the basement. The yard is a lovely extension of the home where you can spend relaxing time on your covered deck, gather down on the brick patio or tend to the gardens in your raised beds.
