Fantastic opportunity in Mountview! Situated on a generous pie-shaped lot with a long driveway, mature trees and established landscaping, this well-kept duplex has a private feel that makes it easy to forget you're not in a detached home. The standout is the spacious living room, filled with natural light and offering a comfortable space to relax or entertain. The bright eat-in kitchen is equally inviting, featuring a bay window, gas stove for the chef in the family, and a large pass-through to the living room that keeps the spaces connected while still providing some separation. Rounding out the main level are three bedrooms and a recently updated main bathroom, creating a practical and comfortable layout for everyday living. The basement is partially developed and includes a full bathroom with laundry, a separate furnace room and a large open area ready for your ideas. There is plenty of room to create additional living space, including the potential for a fourth bedroom. Outside, the fenced backyard offers mature landscaping, an apple tree, raspberry bushes, a firepit and patio area. The spacious paved driveway provides plenty of parking, with room for an RV or work trailer. A green easement along the side and rear of the property adds extra separation and privacy. A bus stop directly across the street provides everyday convenience and helps keep the street regularly maintained throughout the winter. With a functional bungalow layout, a mature yard and room to grow, this Mountview home is a great option for first-time buyers, young families, downsizers or anyone looking for value in an established neighborhood.
