Facing directly onto Bear Creek's peaceful green space with NO REAR NEIGHBORS, this immaculate, fully developed 3-level split townhouse delivers a smart layout, thoughtful upgrades, and low-maintenance appeal. With approximately 1,445 sq. ft. of total developed living space- 935 sq. ft. RMS above grade plus approximately 510 sq. ft. in the fully developed lower level- this 3-bedroom, 2-bathroom home has been extensively updated from top to bottom. Seamless vinyl plank flooring flows across all three levels, paired with fresh neutral paint on the walls, ceilings, and baseboards, plus modernized lighting and plumbing fixtures. At the heart of the main floor is a bright, open kitchen and dining area featuring refaced cabinetry with flat-panel doors and drawers, durable laminate countertops, and stainless-steel appliances including a brand-new steel oven with range hood. Step directly from the kitchen onto the raised composite deck with aluminum railings, then enjoy the manicured yard and new privacy fence- all designed for effortless outdoor living. Settle into the main floor living room, or head upstairs to the primary bedroom with a double closet, a generously sized second bedroom, and a full 4-piece bathroom. Downstairs, deep windows bring in plenty of natural light while the fully developed lower level adds a spacious second family room, a third bedroom with a compliant egress window, a full 3-piece bathroom and laundry area with front-load washer and dryer on pedestals, plus handy under-stair storage. The practical details are covered too- the furnace and ductwork were recently cleaned, the hot water tank and mechanical systems are well maintained, and brand-new white 2-inch blinds are installed throughout.
